Temporary Water Service Meter Terms and Charges

Agreed Upon Terms

1. Temporary water service meters are to be used only when access to a permanent, metered water source is not readily available.
2. Temporary water service meters are to be used for construction purposes only. A potable water supply, irrigating of any type, filling of pools or flooding of ice rinks are not acceptable uses.
3. Applicant must provide an RPZ valve immediately after the temporary water meter. The RPZ shall be tested when the service line is turned on.
4. The meter must be installed on a permanent water service line and the meter must be protected from freezing at all times.
5. All pressure testing, bacteriological samples shall be completed and passed before meter and permit are issued.
6. SPU, not the contractor, shall turn on all service line valves for the temporary service.
7. The meter must be accessible to SPU for meter readings when requested.
8. A copy of this permit must be present and accessible when taking water.
9. This permit can be revoked by SPU at any time.

Agreed Upon Charges

1. A permit fee of \$75.00 is required.
2. In addition to the permit fee, a \$500 deposit (3/4") is required before meter and permit are issued. (Deposit to be refunded upon confirmed return of all undamaged equipment issued, minus any use charges.)
3. Equipment that is damaged or not returned is subject to a repair or replacement charge.
4. A minimum temporary water service meter fee of \$75.00 will be assessed each month, or portions thereof, until meter is returned.
5. Water usage will be charged \$3.29 per 1,000 gallons of water taken.
