SEASONAL DEMAND CUSTOMER CHARGE

To arrive at charges to disconnect service to avoid monthly minimum demand charges:

1. Take the number of months service is to be disconnected.
2. Take the regular billing demand that would apply (which would be 60% of the highest billing demand during the preceding 11 months, or 15KW, whichever is greater).
3. Multiply number of months service will be disconnected times that regular billing demand, and that product times the regular demand charge. This amount will be divided in half, with the Shakopee Public Utilities Commission absorbing one said half.
4. The remaining said half to be paid by the customer, split equally between disconnecting order of service and reconnecting order of service, and due and payable at time of those respective events.

DISTRIBUTED GENERATION INTERCONNECTION APPLICATION FEES

SIMPLIFIED	\$100.00
FAST TRACK – CERTIFIED SYSTEM	\$100.00 plus \$1.00/KW
FAST TRACK – NON-CERTIFIED SYSTEM	\$100.00 plus \$2.00/KW
STUDY	\$1,000.00 plus \$2.00/KW Down payment. Additional fees may apply.

EQUIVALENT LATERAL WATER MAIN CHARGE

County Road 79 Water Main \$2,268.12/acre

This charge applies to all properties and developments abutting and connecting to the water main along the east side of County Road 79 from Westchester Estates to Hillwood Drive.

The charge is to be collected at the time of connection to the public water main.

(SPU Resolutions #851 and #2023-20)

Jennifer Lane Water Main \$9,258.54/acre

This charge applies to all properties and developments abutting and connecting to the water main along Jennifer Lane from the Valley Creek Crossing 2nd Addition to Wood Duck Trail.

The charge is to be collected at the time of connection to the public watermain or the recording of a final plat for a development utilizing the water main, whichever is earlier.

(SPU Resolutions #1190 and #2023-20)

Maras Street, 13th Avenue, Stagecoach Road, Hansen Avenue Water Main \$14,199.52/acre

This charge applies to all properties and developments abutting and connecting to the water main along Maras Street, Hansen Avenue from Stagecoach Road to Maras Street, 13th Avenue, and the east side of Stagecoach Road from 13th Avenue to Hansen Avenue.

The charge is to be collected at the time of connection to the public watermain, the recording of a final plat for a development utilizing the water main, failure of septic or well systems, or sale of the property, whichever is earlier. The typical annual cost escalation for this charge will begin on January 3, 2026. Additional connection timing and funding options are listed in the attachments to the resolution.

(SPU Resolution #2023-23)

CSAH 17 Water Main County Project 17-31 \$8,583.85/acre

This charge applies to all properties and developments abutting and connecting to the water main along CSAH17 from Valley View Road to approximately 800ft north of Valley View Road.

The charge is to be collected at the time of connection to the public watermain or the recording of a final plat for a development utilizing the water main, whichever is earlier.

(SPU Resolution #2023-30)

West End Lower Bluff Water Main \$9,651.78/acre

This charge applies to all properties and developments abutting and connecting to the water main along the east side Old Brick Yard Road from Colburn Drive to the Highway 169 northbound ramp, and along the south side of Highway 169 from Old Brickyard Road to Outlot A in the Windermere Plat.

The charge is to be collected at the time of connection to the public watermain or the recording of a final plat for a development utilizing the water main, whichever is earlier.

(SPU Resolution #2024-03)
